

Product name:	3.0 M Potassium Chloride
Production date:	2019-05
Date of release:	2019-05-17
Retested:	2024-07-11
Stability:	2029-07
Form:	White powder
Composition:	Contents of 1 pouch dissolved in deionized water and made up to 1000 ml yields: 3.0 M Potassium Chloride

Analysis	Specification	Result
Weight	223.68 g \pm 0.50 g	Pass
Optical clarity	Visually clear solution	Pass

The above material has met all quality specifications and has been reviewed by a quality representative.
